WHY WE'RE HERE

Rape Kits are not being tested.

Currently, there are roughly 4,600 untested rape kits in the state of Oklahoma alone.

Survivors are not being alerted.

There is a lack of reporting for the survivors on the status of those who were convicted of attacking them. Many times, they are not alerted when they are sentenced, up for parole, or even when they have been released from jail/police custody

Justice is not being served.

OUR PROGRAMS

Poetry Classes and Readings

New World Justice offers public poetry classes and readings for survivors of sexual assault or abuse and/or domestic violence. The classes function as workshops where individuals can collaborate and help each other with their writing. Once a month we will host open-mic poetry readings, where those who wish can share their work with the community.

Screenings of *I am Evidence*

I am Evidence is a documentary that brings attention to the backlog issue across the country. This Emmy-winning documentary follows the story of four women navigating the criminal justice system, whose rape kits were not tested for years.

WHY DOES THE BACKLOG EXIST?

- **Lack of Policies and Protocols for Rape Kit Testing**
- **Knowledge Gaps and Lack of Training**
- **Whether the Identity of the Perpetrator Is Known**
- **Lack of Resources**
- **Outdated or Unclear Lab Policies**
